## EQUIPMENT INSTALLATIONS

If your heating system is over 15 years of age, there is a good chance that it is not running as efficiently as it could be. New system installations generally have a very quick repayment period for homeowners. In many cases, a new system may cut down your bills by 40% annually!

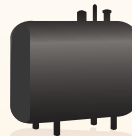

Not only will a new system help you save, but it will also ensure greater comfort and security, fewer service calls, and an increased value of your property! At Ives Brothers we provide expert equipment installations. Call us today for a quote or use the coupon below to make an upgrade!

Boilers and Furnaces

Water Heaters

Oil Tanks

Ductless Mini-Split A/C

### \$200 COUPON

\$200 toward the replacement of your heating system.

(All work must be performed by Ives Bros.)

Expires 12/31/2012

The Company will pay up to \$1,000 towards the replacement of your tank once tested and qualified for ultrasonic oil tank inspection, if a tank leak occurs subsequent to this test due to internal corrosion, a tank leak occurs due to a manufacturer's defect, or a non-leaking tank is identified for proactive replacement. While we cannot guarantee that a leak will not occur or your tank will not fail after testing, we are providing these new services with the hope that by testing and monitoring, we are offering a long-term proactive tank replacement program for our customers. Accidental damage is not covered by ultrasonic oil tank inspection. Ultrasonic oil tank inspection does not cover environmental clean up, property damage, waste disposal services, or other damages or losses caused by a tank leak or system failure even if the tank has been tested and qualified ultrasonically and is enrolled in the ultrasonic oil tank inspection.

# ANNUAL HEATING SYSTEM TUNE-UP

Just like changing the oil in your car, your heating system should be tuned up annually. This is good for you and the environment as it helps reduce the amount of fuel you use which will reduce your energy bills.

 **Lowers the risks of costly unexpected service calls**

 **Increases efficiency which will save on fuel**

 **Prolongs the life of your heating system**

 **Ultrasonic tank inspection enables us to evaluate the safety and integrity of your above ground oil tank. This is important for you and your investment in your home.**

 **\$1,000 Tank Replacement Payment for qualifying tanks**  
**\$200 Tank Replacement Coupon for disqualifying tanks**

- Test and inspect all burner controls
- Perform ultrasonic oil tank inspection
- Clean or replace oil filters and strainers
- Clean nozzle assembly and replace nozzle
- Vacuum and clean heat exchanger and stack as necessary
- Lubricate motors and bearing assemblies
- Tune and adjust oil burner for maximum efficiency
- Perform combustion efficiency test, tune and adjust for maximum efficiency allowed by the manufacturer

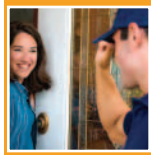

# ENERGY CONSERVATION PLAN

## SAFETY INSPECTION

Our technicians will conduct a safety inspection of the heating system based on manufacturer's recommendations and industry best practice.

## EMERGENCY SERVICE

Rest assured if your system needs unplanned repair we will be there for you 24/7.

## ANNUAL TUNE-UP

The annual tune-up will keep your system running efficiently which saves on fuel usage and extends the life of your equipment.

## 50% DISCOUNT ON COVERED PARTS AND LABOR\*

Parts and filters normally included with the tune-up are free with the Plan. Covered parts and labor\* will be discounted at 50%. (This does not apply to system replacement.)

*Get the entire package of services and discount benefits along with the peace of mind that comes with knowing your system will work efficiently and we'll be there for you if you need us.*

**PLAN PRICE: \$265**
